SCOVILLE'S ASINILY.

WASHINGTON, Jan. 17.—The Guiteau case will probably be given to the jury on Friday (hangman's day.) Mr. Scoville occupied all of to-day and will require the whole of to-morrow to conclude his speech. He could hardly have followed the advice, in his argument to-day, of those eminent unknown counsel who, he has claimed, have been instructing him in matters of criminal practice, for from his method one would almost think the case on trial was of District-Attorney Corkhill, Davidge, and Judge Porter. The ancient maxim that, "When you have a bad case abuse the plaintiff's counsel." Mr. Scoville carried out to the fullest extent to-day. His speech consisted in a great part of criticism of the Government counsel. Many will be disposed to think that he went far beyond the limits of legitimate criticism of his legal opponents, and entered into the domain of unjustifiable denunciation.

He criticised the most minor things in the conduct of the prosecution. He complained once more of their politeness to the jury, and urged that it was unjust that the defense should be bound down by an iron rule of law, when there probably never has been a criminal trial in which the prisoner has been granted such wonderful latitude. He spoke of the government witnesses as spies, charged the government attorneys with mutilating the evidence, denounced Judge Porter as a vain, as controlled by passion, as prostituting his talents for money to hang an insane man, and, last of all warned them to beware of "Jungo Porter's bony finger and theatrical manna." As for District-Attorney Corkhill, Scoville pronounced upon him anathema maranatha. He said that "if this man were hanged, if he went to the gallows through the evidence, and arts, and practices resorted to by the prosecution, in after years, if conscience does its duty, that scene will come often to the gentleman [Corkhill]. A vision will come to him at night. A voice will come from that shapeless head under a black cap, saying: 'It was God's arm and not mine, Corkhill,' in the tones of a lunatic. He may now seek to ride on the wave of popular vengeance, but like the harlot who was crowned and called a goddess by the Parisian mob, when the action came he would be left stranded on the shore of popular disgrace."

Tea, Coffee and Chocolate.

The editor of *Science* thus discusses the value and effects of the above beverages: "Chocolate," he says, "from its large proportion of albumen, is the most nutritive beverage, but, at the same time, from its quantity of fat, the most difficult to digest. Its aromatic substances, however, strengthen the digestion. A cup of chocolate is an excellent restorative and invigorating refreshment even for weak persons, provided their digestive organs are not too delicate. Cardinal Richelieu attributed to chocolate his health and hilarity during his later years. Tea and coffee do not afford this advantage. Albumen in tea leaves and legumin in coffee berries are represented in very scanty proportions. The praise of tea and coffee as nutritive substances is, therefore, hardly warranted. Tea and coffee, though of themselves not difficult of digestion, tend to disturb the digestion of bituminous substances by precipitating them from their dissolved state. Milk, therefore, if mixed with tea or coffee, is more difficult of digestion than if taken alone, and coffee alone without cream produces digestion after dinner by increasing the secretion of the dissolving juices. The volatile oil of coffee and the empyreumatic and aromatic matters of chocolate accelerate the circulation, which, on the other hand, is calmed by tea. Tea and coffee both excite the activity of the brain and nerves. Tea, it is said, increases the power of digesting the impressions we have received, creates a thorough meditation, and, in spite of the movements of thoughts, permits the attention to be fixed upon a certain subject. On the other hand, if tea is taken in excess it causes an increased irritability of the nerves, characterized by sleeplessness, with a general feeling of restlessness and trembling of the limbs. Coffee also, if taken in excess, produces sleeplessness and many baneful effects very similar to those arising from tea-drinking. Coffee, however, produces a greater excitement and a sensation of restlessness and heat ensues. For throwing off this condition fresh air is the best antidote."

HUMORS OF THE DAY.

"BEAR with me for a while," is what Bruin said when he affectionately embraced the tramp.

WILL the coming man wear a stovepipe hat? is asked. Not unless he smokes, replies the Elmira *Free Press.*

HE HAD been telling her stories of himself, and had done a great amount of bragging. When he had finished she kissed him and murmured, "This is a kiss for a blow."

A CONNECTICUT man has invented a pipe that will light itself. This is an underhanded attempt to force house painters to find some new way to kill time.—*Boston Post.*

"Now I lay me down to sleep," said little Toddlepins. Then stopping a minute, "but I ain't going to pray for mamma's sole to keep, 'cause it hurts." He is regarded as the Bob Ingersoll of the family.

"ÆSTHETIC DAMSEL." The most charming decoration for a plate is a good piece of beefsteak with well cooked potatoes and just a sufficiency of gravy. It'll lay over trailing vines or a sunflower any day.—*Boston Post.*

"THE ripest peach is on the highest tree," says James Whitcomb Riley. James shows his ignorance. The ripest peach is in the bottom layer of the basket every time, and it is generally about nine shades too ripe.

NEW YORK'S latest lah-da-dah: "Do you play the piano?" "No; I don't play the piano, but my sister Hannah, who is in Savannah, she plays the piano in the most charming mannah." "Haveabanana?"—*New York Star.*

THE difficulty originated in this way. Said Gallagher to Bagbag—"I heard a story just now that was funny enough to make a jackass laugh. Let me tell it to you." "Don't you slur me in any such remark as that," roared Bagbag, angrily.

"How many of you are there?" asked a voice from an upper window, of a serenading party. "Four," was the reply. "Divide that among you," said a voice, as a bucket of slop fell "like the gentle dew of heaven," on those beneath.

THE Norristown *Herald* is accountable for the statement that a New York "ninety-nine cent store" was robbed of eleven gold bracelets, six watches, three diamond pins, fourteen gold brooches and fifty-four finger rings. The loss is estimated at $2.20.—*Oil City Derrick.*

SAID Maguire to Finnegan—"When you see me acting like a fool, tell me so." And Finnegan said he would. And in about half an hour he called out—"Maguire, you're making a fool of yourself." And then Maguire got mad and thumped Finnegan. It always works that way.—*Boston Post.*

CAN any one tell us why a woman, emerging from a crowded car, always makes believe she is going to get out at one side of the platform, until two or three men have jumped off in the mud, and then steps off at the other side. She always does it, and we want to know the reason why.—*Philadelphia Bulletin.*

A CONUNDRUM—"What is the difference between a man going to Plymouth Church and a lover about to propose?" asks the Boston *Courier.* Don't know.—*Boston Post.* Then you had better go back to school. One is going to see Beecher and the other, to beseech her.—*Philadelphia Bulletin.*

THERE is lots of enterprise in this world. A Chicago saloon-keeper offers prizes to persons who take the greatest number of drinks at his bar in a given time. And it may not be long before enterprising undertakers offer premiums to families in which there are the largest number of deaths during the green apple and cucumber season.—*Norristown Herald.*

IT IS remarkable what little bites a woman takes when eating in the presence of her sweetheart. What a little mouth she has then! She nibbles with her little white teeth like some dainty squirrel eating a hickory nut. But wait until wash day comes. Watch her when she goes to hang up clothes and gets in a hurry. By the time that she gets the big ends of fifteen clothes pins hid in that mouth you will begin to think that it is a pretty good sized hearty mouth after all.—*Bloomington Eye.*

SHE sat at the table of a fashionable watering place, and she wore a crimson satin dress cut as close to the shoulder as law and shoulder would allow. She swept the air with her bare arm, and as her fingers were covered with rings, she seemed to bring down the stars every time. She plunged her fingers into one dish after the other, and wiped her mouth on the back of her hand. One of her neighbors quietly passed her a napkin, and she picked it up as quietly and said: "Here! quick! somebody has lost a handkerchief. I never carry anything as coarse as that."—*New York Herald.*

F. H. Drake's Sufferings.

F. H. Drake, Esq., Detroit, Mich., suffered beyond all description from a skin disease, which appeared on his hands, head and face, and nearly destroyed his eyes. The most careful doctoring failed to help him, and after all had failed he used the Cuticura Resolvent (blood purifier) internally, Cuticura and Cuticura Soap (the great skin cures) externally, and was cured, and has remained perfectly well to this day.

EDGERTON.

—E. W. Babcock has just made some expensive and long needed improvements on his block, one of which is the new and handsome awning and steps to his store.

—Mr. Mendleson has just opened a clothing house in the vacant store room next west of the U. S. House.

—George Mableson has added to the appearence of the office in the Hotel by re-papering.

—H. Benson, State agent of the North Western Mutual Life Insurance Company of Milwaukee, has just appointed W. R. Phillips as agent to do the business for the company this vicinity.

—St. Joseph's Catholic church have taken down their new bell with the intention of making an exchange, hoping we understand to improve the tone and obtain one more suitable. We regarded the old one as the finest sounding bell in this section, and are sorry to hear of its early failure to give satisfaction.

—We have heard some complaints of late as to the condition of the depot, some persons claiming that the railroad company do not pay attention enough to the comforts of the traveling public.

—The Clement concert, Thursday night, was a decided success, the singers giving excellent satisfaction, as of old. As a crowded house greeted his combination, so will it ever be when Mr. Clement may see fit to visit our town.

—Some are getting quite anxious to know whether we are to have a tobacco factory or not. This is an important question with most of our people, and we hope to hear of the decision ere long to build and locate an institution of this kind in our village.

—James Green, of Geneva Lake, Wis., has been visiting friends and relatives here for a few days past.

—As yet we have no small-pox in the village, reports to the contrary notwithstanding.

—One of our oldest residents, Edward Rooney, breathed his last Monday. The death of Mr. Rooney was not unexpected, as his health has been very poor for a number of years.

—The Culton Bros., are busily engaged in filling their ice house, which has a capacity of one thousand loads. The prospect for these gentlemen seems excellent for the ice trade, as the business seems altogether their own, this season.

Experiences of a Traveler.

I got into the cars and took a seat in juxtaposition to a female. The female's face was a perfect insurance company—it insured her against ever getting married to anybody but a blind man. Her mouth looked like a crack in a dried lemon, and there was no more expression in her face than there is in a cup of cold custard. She appeared as though she had been through one famine and had got about two-thirds through another. She was old enough to be great-grandmother to Mary that had the little lamb. She was chewing prize pop-corn, and carried a yellow rose, with a bandbox and cotton umbrella nestled sweetly by her side. I couldn't guess whether she was on a mission of charity or going West to start a saw-mill. I was full of curiosity to hear her speak, so I said:

"The exigencies of the times require great circumspection in a person who is traveling."

Says she, "What?"

Says I, "The orb of day shines resplendent in the vault above."

She hitched around uneasy-like; then she raised her umbrella and said: "I don't want any of your sass—get out," and I got out.

Then I took a seat alongside of a male fellow, who looked like a ghost of Hamlet lengthened out. He was a stately-looking cuss, and he was reading.

Said I, "Mister, did you ever see a camelopard?" I said camelopard because it is a pious animal and never eats grass without getting down on its knees.

He said he hadn't seen a camelopard.

Then said I, "Do you chew?"

He said, "No, sir."

Then I said, "How sweet is nature!"

He took this for a conundrum, and said he didn't know. Then he said he was deeply interested in the history of a great man. "Alas!" he exclaimed, "we are but a few!"

I told him I knew one. "The man that made my cooking-stove was a great man."

Then he asked, "Would I read?"

Says I, "What have you got?"

He replied, "Watts' Hymns," "Reveries by Moonlight" and "How to Spend the Sabbath."

I said, "None of them for Hannah," but if he had an unabridged business directory of New York city I would take a little read.

Then he said, "Young man, look at these gray hairs."

I told him I saw them, and when a man got to be as old as he was he ought to die. Said I, "You needn't think these gray hairs are any sign of wisdom; it's only a sign that your system lacks iron, and I advise you to go home and swallow a crowbar."

He took this for irony, and what little *entente cordiale* there was between us was spilled. It turned out that he was chaplain of a base-ball club.

When we got to Rochester I called for a bowl of soup. I send you the recipe for making it: Take a lot of water, wash it well, and boil it until it is brown on both sides, then carefully pour one bean into it and let it simmer. When the bean begins to get restless sweeten it with salt, then put it up in air-tight cans, hitch each can to a brick and chuck them overboard, and the sirup is done.

The above recipe originated with a man in Iowa who got up suppers on odd occasions for Odd Fellows. He had a recipe for oyster soup, leaving out the salt.

Outrage on a Member of the Press.

"Ha! ha! ha! I've got a good joke for you. The other paper has been kicking me to get it, but it hasn't got the circulation you have, so I brought it to you. It's immense," and, handing over the following to the Sifter, with the remark that he did not expect any remuneration beyond a few dozen copies to send to his friends, Mr. Gilbooly, for he was the intruder, warbled, "Ha! ha! ha!" in a hysterical manner, and vanished like a beautiful nightmare. Here is the corpus delicti:

"Yesterday morning Gilhooly dropped into Merritt's grocery, on Galveston avenue, and exasperated that gentleman by saying that there was a mistake about the pound of sugar he had ordered the day before.

"'What mistake was there?' growled Merritt.

"'I ordered dark sugar and you sent me light sugar,' responded Gilhooly, serenely.

"'I sent you dark sugar.'

"'No, sir; you sent me light sugar, for I weighed it and it was four ounces too light.'

"Merritt, exasperated, replied, with unconscious humor, seizing a pound weight and making for Gilhooly: 'Just you wait.'

"'Just wait? I did just weigh it, and there was no just weight about it. It's just the way you always do. Just you wait till I buy something else from you.'"—*Galveston News.*

CLINTON.

—The sad news comes to us of the death of Mr. Loomis Curtis, brother of C. T. Curtis, of our place, and husband of she that was Eva Osborne. He died in Florida about the first of this month. This brings sorrow to many hearts in this region, where resides numerous relatives and friends.

—Last Friday Mrs. Fred Rheulman died in Chicago. Her maiden name was Ida Dobbin, who for many years was a resident of our village, and whose memory will be sorrowfully cherished by numerous schoolmates and friends. Mr. Rheulman was formerly a clerk in the railroad office here, and was chief clerk in the baggage department, of the Northwestern Railway Company in Chicago.

—Our roads are now in the best condition they have been in for more than three months, and people are improving them as fast as possible by hauling wood, hay, grain, hogs, stone, and other commodities to this market and elsewhere.

—Mercury ten degrees below zero on Tuesday morning last, the coldest of this season thus far.

—Next Saturday, the 21st, our citizens vote on the question of incorporation. As the evidence seems to be pretty conclusive that to incorporate will double our taxes without any corresponding equivalent, it is thought that the majority will be opposed to incorporating.

—On Thursday morning Mr. Charles Tuttle had a sudden and severe shock of paralysis. Drs. Palmer and Jones were summoned to his bedside, and everything done that human agency could desire. He lingered until Monday evening, and then calmly and peacefully passed away. His son William arrived from Kansas on Saturday evening, and his daughter, Mrs. Dr. Jenks, from Dakota, on Tuesday. Mr. Tuttle was born in Rutland, Jefferson county, N. Y., in 1811; came to Clinton, Wis., April 9, 1837, where he has since continued to reside. Mr. Tuttle, Milton S. Warner, Wm. S. Murray and Dennis Mills were the first white men to step on Clinton soil. For over forty-five years Mr. Tuttle has been intimately and actively connected in all the affairs of church and state, in all of which he endeared himself to his neighbors and friends by his many excellent qualities of both head and heart. He leaves a wife, three sons and a daughter, and a host of relatives and friends to mourn his loss.

—S. F. Hammond, of Redfield, Dakota, is visiting his old time Clinton friends, and receives a very cordial welcome.

—Rev. H. A. Smith, of Tampico, Ill. occupied the Baptist pulpit Sunday morning and evening.

MANY MISERABLE PEOPLE drag themselves about with failing strength, feeling that they are steadily sinking into their graves, when, by using Parker's Ginger Tonic, they would find a cure commencing with the first dose, and vitality and strength surely coming back to them. See other column.

CENTER.

—Nearly everyone are through or nearly through striping tobbacco, this is remarkable for the time of year. Messrs Zwicker & Chiles are in the neighborhood casing and receiving.

—Samuel Cleland, who fell from a load of tobacco and got so severely hurt, a fortnite ago, is slowly improving.

—Seth and Samuel Fisher have gone to Washington to attend the Farmers Congress, and expect to visit New York and Philadeldhia before they reach home.

—Several candidates to be installed at the Grange next Friday evening, a general good time expected.

—Elder Towell moves into the Grove parsonage this week, and will then take full charge of his flock.

—The Mite society at Mrs. Ira Parmley's next Thursday evening, a change in the programme will be advanced at that time and meeting.

—There will be an oyster supper and entertainment given at Center Grange hall, Tuesday evening, Jan. 24th inst. The literary people will swell the programme by some of their choicest selections. There will also be a speach on the conduct of Guiteau, the ssssassin.

MADE FROM HARMLESS MATERIAL, and adapted to the needs of fading and falling hair, Parker's Hair Balsam has taken the first rank as an elegant and reliable hairrestorative.

SHOPIERE.

—O. B. Palmiter and wife started for New York State Monday morning for a visit with their daughter Mrs. Brown.

—Miss Lizzie McArthur of Fort Atkinson, is a guest of Dr. Belding and wife.

—The coldest day of the season last Tuesday, 10 degrees below zero.

—The measles have fir a'y arrived at our village and D. Crostenburg's family are the first to receive a visit.

—We hear that the officers of the Rock county Sunday school convention have decided to hold the annual meeting at this place about the middle of February.

—Large lots of corn are being loaded at our depot for J. C. Church, of Clinton. This makes it just as good for the farmers here as though we had the Clinton market.

—The many friends of Dr. Bell, of Beloit, will be glad to learn that he is much better, though not able to leave his bed. He has had a very severe attack of malarial fever, with neuralgia in the head. We hope for his speedy recovery.

—Mr. T. W. Wadsworth came to the village with a dislocated shoulder Monday, which was put in swinging order again by Dr. Manley.

—Two wolves were captured in the south part of the town one day last week.

—Rev. Mr. Fellows is playing the part of a bachelor, his wife having gone to her home in Randolph, Wis., for a short visit.

Honorable Mention.

Of all the remedies on earth that well may claim attention, DR. THOMAS' ECLECTRIC OIL commands especial mention. For wondrous power to cure disease, its fame there's none can throttle. Its merits are not in the puff, but are inside the bottle. Rheumatism, neuralgia, sore throat, asthma, bronchitis, diphtheria, etc., are all cured by Thomas' Eclectric Oil.

Sold by A. J. Roberts and F. Sherer & Co.

EMERALD GROVE.

—Mr. George Tuttle, teacher in the upper room, is detained at his home near Clinton this week by his father's illness.

—The funeral services of Miss Caroline Jones took place in the Congregational church on Saturday last. The attendance was very large. The discourse was preached by the pastor from the text "Be still and know that I am God," and some touching songs were sung by Mr. and Mrs. R. Cheney and L. Cheney. Caroline was one of our best girls, of an amiable and lovely character, beloved by all who knew her. Life opened out to her with fair prospects. She was looking foward to an early union in marriage with one of our best young men, who was present at the funeral, as one of the deepest mourners. Yet it was not so to be. She will be missed in the choir, the Sabbath school, the church, the social gathering, but most of all in the home circle. Had she lived to January 25, she would have been twenty-one years of age. Her sister, Mrs. Mary Jane Lawrence arrived the day before from Dakota.

—Mrs. Ann Scott and daughter, former residents in this vicinity, are visiting with friends here.

—The literary circle meets at Mr Humphrey's this week.

PATENTS.

The Formalities to Be Gone Through Before Obtaining a Patent.

Familiar as the results of the work of the Patent Office are to the majority of us, there are many who do not understand the modus operandi of getting a patent. The Government has wisely made the procuring of patents not only cheap, but, always supposing the applicant has something new, excessively easy. An inventor is not required in this country, as he is in some of the European states, to become acquainted with mysteries alongside of which those of Eleusis were child's play; nor is he constantly encountering vexatious technicalities which "give him pause." Given the invention, which must be "new and useful," the Government requires the inventor to file a petition for the patent; an oath that he is, as far as he knows, the original inventor; specifications containing a full and very clear description of his invention, such a description, in the words of the Rules of Practice of the Patent Office, "as will enable others skilled in the art to which it pertains to make and use the same;" drawings which show clearly the machinery, if machinery it be; and, when it is practicable, a model which can be worked.

The tests applied by the Examiners of the Patent Office as to the newness of an invention are very severe. Not only is it compared with the many thousands of patents granted in this country, it has to stand a comparison with all of the known inventions of other countries. The Patent-Office reports of all Governments that issue such a publication are searched. If the invention stands these tests it is then examined as to its usefulness. The last of these is seldom made by an examiner, for the simple reason that applications are not often put in for things which would be of no use at all. Patents, however, are often refused for machines prejudicial to public morals, as, for example, gambling contrivances.

The invention having been perfected, the specifications have to be written out. These must contain a description of the invention, clear, full and expressed in the plainest possible manner.

The specifications having been written, the drawings have to be made. The office requires that they shall be of uniform size, ten by fifteen inches, made upon stiff calendered paper, and that all lines shall be clear and absolutely black. There is an excessively good rule now in operation in the Patent Office. In cases where new drawings are required, owing to technical errors in those first sent, the imperfect ones are sent to the examiners, in order that there shall be no delay in the examination. We think it would be well for the Commissioner to extend this rule to the point of not requiring new drawings from applicants unless the patent is to be granted. As things are now the office makes new drawings at actual cost. It maintains a large staff of draughtsmen for the convenience of inventors, and in this, as in everything else connected with its workings, shows itself animated by a spirit of great liberality and a desire to make everything as easy as possible for the applicant. The demand, then, for the fees for new drawings when the patent is ultimately refused is one which is not in consonance with the spirit in which the institution is carried on, and is often a severe tax on the inventor. As the examination into the application can take place with the old drawings, and under the present rule does take place, the work of the office would not be injured by the proposed extension. With the various papers the applicant is required to send in a model, when one is practicable. This model must not exceed one foot in length, breadth or height.

The application being complete, it goes through the office in its order, this being determined by the date of the filing of the papers. By special request of one of the heads of Government departments applications for patents may be taken up out of the regular order. Such a request is not often made, as may be supposed. When the application has successfully passed the examiners, the patent is granted by the Commissioner. This gives to the inventor the sole ownership of the invention, within the limits of the United States, for a period of seventeen years. His invention has become property in a legal sense, and he may treat it exactly as he would any other kind of property—he may sell it, lease it, mortgage it, or give it away. If it is of great value he will make his fortune if he holds on to it, by royalty or any other means; or if it is worth nothing commercially he will have lost his time and his money.

Answer This.

Did you ever know any person to be ill without inaction of the Stomach, Liver or Kidneys, or did you ever know one who was well when either was obstructed or inactive; and did you ever know or hear of any case of the kind that Hop Bitters would not cure? Ask your neighbor the same question.

A PENSION of £4,000 was granted in 1790 by the British Parliament to the heirs and descendants of William Penn, in consideration of his meritorious services, and of the losses which his family sustained in consequence of the American war. It is now paid to Col. William Stuart, a descendant.

MISCELLANEOUS

Cuticura

THE CUTICURA TREATMENT, for the cure of Skin, Scalp and Blood Diseases, consists in the internal use of CUTICURA RESOLVENT, the new blood purifier, and the external use of CUTICURA and CUTICURA SOAP, the great skin cures.

SALT RHEUM.

Will McDonald, 2542 Dearborn St., Chicago, gratefully acknowledges a cure of Salt Rheum on head, neck, face, arms and legs for seventeen years; not able to walk except on hands and knees for one year; notable to help himself for eight years; tried hundreds of remedies; doctors pronounced his case hopeless; permanently cured by Cuticura Resolvent (blood purifier) internally, and Cuticura and Cuticura Soap (the great skin cures) externally.

PSORIASIS.

H. E. Carpenter, Esq., Henderson, N. Y., cured of Psoriasis or Leprosy, of twenty years' standing by the Cuticura Resolvent (blood purifier) internally and Cuticura and Cuticura Soap (the great skin cures) externally. The most wonderful case on record. Cure certified to before a justice of the peace and prominent citizens. All afflicted with itching and scaly diseases should send to us for this testimonial in full.

SKIN DISEASE.

F. H. Drake, Esq., Detroit, Mich., suffered beyond all description from a skin disease which appeared on his hands, head and face, and nearly destroyed his eyes. The most careful doctoring failed to help him, and after all had failed he used the Cuticura Resolvent (blood purifier) internally, Cuticura and Cuticura Soap (the great skin cures) externally, and was cured, and has remained perfectly well to this day.

SKIN HUMORS.

Mrs. S. E. Whipple, Decatur, Mich., writes that her face, head and some parts of her body were almost raw. Head covered with scabs and sores suffered fearfully and tried everything. Permanently cured by Cuticura Resolvent (blood purifier) and Cuticura and Cuticura Soap (the great skin cures.)

DR. PRICE'S REPUTATION!

Has been acquired by candid, honest dealing and years of successful practice.

My practice, not one of experiment, but founded on the laws of Nature, with years of experience and evidence to sustain it, does not tear down, make sick to make well; no harsh treatment, no trifling, no flattering. We know the cause and the remedy needed; no guess work but knowledge gained by years of experience in the treatment of Chronic Diseases exclusively: no encouragement without a prospect. Candid in our opinions, reasonable in our charges, claim not to know everything or cure everybody, but do lay claim to reason and common sense. We invite the sick, no matter what their ailment, to call and investigate before they abandon hope, make interrogations and decide for yourselves: it will cost nothing as consultation is free. Visits made regularly.

Piles! Piles! Piles!

A Sure Cure Found at Last, No One Need Suffer!

A sure Cure for Blind, Bleeding, Itching and Ulcerated Piles has been discovered by Dr. William, (an Indian remedy,) called Dr. William's Indian Ointment. A single box has cured the worst chronic cases of 25 or 30 years standing. No one need suffer five minutes, after applying this wonderful soothing medicine. Lotions, instruments and electuaries do more harm than good. William's Ointment absorbs the tumors, allays the intense itching, (particularly at night after getting warm in bed,) acts as a poultice, gives instant and painless relief, and is prepared only for Piles, itching of the private parts, and for nothing else.

Read what the Hon. J. M. Goffinberry, of Cleveland, says about Dr. William's Indian Pile Ointment: I have used scores of Pile Cures, and it affords me pleasure to say that I have never found anything which gave such immediate and permanent relief as Dr. William's Indian Ointment.

A POPULAR TONIC

For Weak Lungs and Consumption.

No preparation ever introduced to the American public, for the relief and cure of Coughs, Colds, Sore Throat, Debilitated Constitutions, Weakness of the Lungs, or Consumption in the incipient or advanced stages of the disease, has ever met with the indorsements of physicians or patients as the celebrated "Tolu, Rock and Rye." The repeated and continued sales of the article everywhere are the best evidence of its real merits. Letters and testimonials from every quarter of the country, attesting the stimulating, tonic and healing effects, are in possession of the proprietors, and can be adduced to convince the most skeptical reader of its intrinsic virtues. Further commendation is unnecessary and superfluous, as a trial of this article, having a pleasant taste and agreeable flavor, will satisfy all those who are afflicted or pining away with pulmonary weakness of the relief to be secured by the use of Tolu, Rock and Rye.—*Chicago Times.* dec2ldeod6m

Mothers! Mothers!! Mothers!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere 25 cents a bottle. mar18d-mon-wed-sat-33wly

—The extent of the stationery "spoils" of the Rock county legislators is the ordinary No. 2 Fabers, and a few sheets of foolscap,—per member, which seems to satisfy the most avaricious seeker of public plunder.

—Britton & Kimball have an interesting catalogue of a portion of their immense stock of fine furniture displayed in to-day's Gazette, which housekeepers and those contemplating housekeeping will do well to study.

—Mr. C. Withington, of this city, who has already made a wide reputation on account of his successful grain binder, is industriously engaged in making improvements in his machine. His binder is now as near perfect as the best binder in the country.

THE LADY ELGIN

To the Editors.

Janesville, January 17.—There has been some dispute among persons in the city, in regard to the time the Lady Elgin went down on Lake Michigan. Can you give the correct date, and the number lost?

The unfortunate Lady Elgin went down at about half past two o'clock on the morning of September 8, 1860. She left Chicago between ten and eleven o'clock that night for Lake Superior, having on board 385 passengers, and 200 head of cattle. She collided with the schooner Augusta, when some fifteen miles from Chicago, and twelve miles off Point Winelka. The lost numbered 287, including the Hon. Herbert Ingram, member of the British Parliament, and founder of the "London Illustrated News."

Father is Getting Well.

My daughters say, "How much better father is since he used Hop Bitters." He is getting well after his long suffering from a disease declared incurable, and we are so glad that he used your Bitters. —A lady of Rochester, N. Y.

NO FUNERAL.

The remains of the late D. G. Tracy did not arrive at half-past one to-day as was supposed they would, and therefore there was quite a disappointment as complete arrangements had been made for the funeral at the First Methodist church this afternoon, and the hearse, pall-bearers, friends, and carriages were in waiting at the depot for the arrival of the train. A dispatch this afternoon says the remains will arrive at 8:40 this evening. The services will be held at 11 o'clock to-morrow morning. The Rev. Mr. Eaton, of Madison, assisted by the Rev. D. J. Holmes, pastor of the First Methodist church, will officiate.

The pall-bearers designated are G. F. Lane, George Ashley, James Croft, and J. G. Hayner.

THE WEATHER.

REPORTED BY PRENTICE & EVENSON, DRUGGISTS.

The thermometer this morning at 7 o'clock stood at 11 degrees above zero; and at 1 o'clock at 26 degrees above. Cloudy. For the corresponding time last year the thermometer stood 2 below and 18 degrees above.

Washington, D. C., January 18, 1 a. m. —The following are the indications for to-day:

Lake region—slightly warmer, partly cloudy weather, light snow in northern portion, southerly to westerly winds, lower barometer.

If you are bilious, take Dr. Pierce's "Pleasant Purgative Pellets," the original "Little Liver Pills." Of all druggists.

COUNTY BOARD.

The county board of supervisors convened at the court house this morning at 9:30 o'clock, with Mr. Chairman J. C. Metcalf in the chair and all the members present except Messrs. Aller, Baker, Fisher, and Kimball.

The journal of yesterday was read and approved.

Mr. Keeler withdrew the resolution introduced by him yesterday, and presented the following, which was adopted:

Whereas, The superintendent of the poor for the city of Janesville, has in the last year been obliged to purchase nearly one-hundred cords of wood for supplying the poor, and while this board have entire confidence in the ability, honesty and economy as always displayed by said superintendent, in making his purchases for the county, but believing that money may be saved to the county by purchasing fuel for the poor in large quantities. Therefore,

Resolved, That Volney Atwood, superintendent of the poor be respectfully requested to advertise and receive bids, and purchase from the lowest bidder, seventy-five cords of good merchantable wood of such quality as his judgment may suggest, to be distributed by him to the poor, or as much as may be necessary as he may direct; said wood to be paid for by the county of Rock. Also that said superintendent be respectfully requested to procure the lowest bids for such groceries and other supplies as he may need for distribution to the poor, quantity and quality considered.

Mr. Greenman, from the special committee, made the following report, which was adopted:

The undersigned, a committee appointed to prepare and present resolutions of respect for the late W. H. Pease, beg leave to report, and to recommend the adoption of the preamble and resolutions following:

Whereas, The voice of death has called from the activities of earthly life Webster H. Pease, a member of this board from the town of Fulton, and

Whereas, It has been deemed proper that sincere expression of our appreciation of his public services and his manly qualities should be made; therefore

Resolved, By the Rock County Board of Supervisors, that in the death of Mr. Pease the county has lost a faithful and efficient public servant, and that the members of this board have lost a courteous and worthy associate.

Resolved, That we tender our expressions of sympathy to the family of the deceased in this bereavement, and that a copy of the foregoing resolutions, attested by the county clerk and by the chairman of this board, be forwarded to the family at Fulton.

Upon the recommendation of the committee, the name of Gunner Larson was changed to Gunder Larson.

The committee to whom was assigned the duty to report upon furnishing a room in the court house for the county superintendent of schools, and teachers, asked for further time to consider the question. Granted.

On motion of Mr. Menzies, the board adjourned until 1:30 in the afternoon.

The board met at 1:30, but no business of general importance was transacted, the committees having the bulk of the business in hand not being ready to report, the members took a free and easy discussion on the question of dispensing with the telephones, but got tangled up in the wires somewhat, when our reporter left the court room.

A pure, wholesome distillation of witch hazel, American pine, Canada fir, marigold, clover blossoms, etc., fragrant with the healing essences of balsam and pine. Such is Sanford's Radical Cure for Catarrh. Complete treatment for $1.

Death to rats, mice, roaches and ants; Parsons' Exterminator. Barns, granaries, and households cleared in a single night. No fear of bad smells. Best and cheapest vermin killer in the world. Sold everywhere.

THE COTTON FACTORY.

The annual meeting of the stockholders of the Janesville cotton factory took place yesterday afternoon, when the following directors were chosen:

W. A. Lawrence, F. S. Eldred, E. C. Smith, Henry Palmer, A. J. Ray, Peter Myers, E. W. Fisher, Hiram Merrill, and John Watson.

The directors met and elected the following officers:

President—William A. Lawrence.
Vice President—Hiram Merrill.
Secretary—A. J. Ray.
Treasurer—F. S. Eldred.

A semi-annual dividend of five per cent was declared. The capital of the company is now $240,000, and no incumbances. Some talk has been indulged in lately in regard to the Janesville cotton manufacturing company very largely increasing its capacity, but at the meeting yesterday, there was no conclusion reached, as to what would be done, the matter being talked over only in a general way.

PERSONAL.

—Mr. John R. Bennett has gone to Jefferson and Watertown on legal business.

—Chas. H. Voorhees, now one of the wide-awake business men of Cedar Rapids, Iowa, is in the city, greeting his old friends.

—Mr. S. F. Hammond, formerly of this city, and now of Redfield, Dakota, is in town enjoying a good time with his friends.

—George W. Furseman, of New York who had the privileges of the Robbins & Colvin show, the past season, is in the city to-day.

—Mr. A. E. Morse, formerly of the abstract office, returned to the city last evening from Kansas. He has made arrangements to establish a bank at Montello, in this State. The many friends of Mr. Morse will be glad to hear of his prosperity.

—Mr. Winans, of Rock, is a member of the Committee on Judiciary, and on Bills in Third Reading. Mr. Huntley is a member of the Committee on Privileges and Elections, and Mr. Conley is Chairman of the Committee on Roads and Bridges.

—Mrs. H. S. Dickerman, principal of the well known "Home School" at Holyoke, Massachusetts, is a sister-in-law of Mrs. Dickerman, of this city, who lives in the First ward. The "Home," as it is generally called, has a wide reputation even outside of New England.

—Hon. S. T. Merrill, of Beloit, was in the city to-day, attending the meeting of the county board, of which he is a member. Mr. Merrill takes a deep and an active interest in savings banks, and is a strong advocate of school savings banks, and has written some valuable and convincing articles on that subject for the Chicago papers. His object is to adopt the system in this county, if possible, or rather to have them general throughout the State. They work admirably wherever they have been organized, and doubtless they would be successful here.

—Mr. E. D. Carrell, conductor of the new passenger train from Janesville to Rockford and Davis Junction, over the Chicago, Milwaukee & St. Paul road, has been in the employ of the company for twenty-three years, seventeen years of that time being spent as freight conductor. The run now is from Janesville to Rockford in the evening, from Rockford to Janesville in the morning, and at eleven a. m. for Davis Junction, returning to Milton Junction, then to Janesville, and to Rockford again in the evening, making a run of 178 miles. Mr. Carrell is now one of the oldest in service of the conductors on the Chicago, Milwaukee & St. Paul, and has won his recent promotion purely through genuine faithfulness and efficiency. He has an excellent run, and one which is certainly growing better, and his friends are glad of it.

ABOUT BELOIT AND GOUGH

There has been some feeling waked up in Beloit between certain persons in regard to the refusal of the trustees of the First Congregational church to open this church for John B. Gough.

Mr Dow, who has engaged the great temperance orator, has made his statement in the columns of the Free Press, to which one of the trustees takes exception and replies as follows: Mr. Dow in the Free Press of Saturday says: "My proposition to the trustees of the First Congregational church, as published in the Daily Free Press, Tuesday, that they open their church to a temperance lecture from John B. Gough having been ignored by them, and thus the only place in the city large enough to accommodate all who would gladly hear Mr. Gough, being closed against them, the lecture will be given at the Goodwin Oprea House.

"The trustees having offered to light and heat the church without charge for Mr. Gough's lecture, provided the proceeds, after deducting expenses, should be appropriated to any benevolent object, Mr. Dow made the proposition referred to above, which was as follows:

'"I will place Mr. Gough at your disposal, you stepping in and assuming my liabilities which will probably amount to but not exceed, three hundred dollars, upon this condition, to wit:—That you open your church to Mr. Gough, that you make your tickets of admission fifty cents each as I would have done, and the profits of the lecture, if any, be placed in the hands of the Woman's Christian Temperance Union.'

"Because the trustees did not deem themselves elected to undertake such enterprises and to assume such responsibilities, is it honest for Mr. Dow thus to convey the impression that they refuse to open the church for Mr. Gough's lecture?

"Trustee."

It would seem from this that the trustees of the First Congregational church have not been in the habit of renting the church for private speculation, and therefore made the offer to Mr. Dow given in the communication of one of the trustees to the Free Press. This course certainly makes the trustees of that church consistent and unblamable.

BITS OF INFORMATION.

WHEN "18-carat gold" is mentioned or is stamped upon a watch case, it intimates that—24 carats representing pure gold—there are six parts alloy to eighteen of gold in the article.

THE material used for producing the colored faces of circus clowns is bismuth for white and Chinese vermillion for red. Before either is applied cold cream is rubbed on the skin.

THE largest State in the Union is Texas. It contains 274,356 square miles. The largest States east of the Mississippi river are, in their order, Florida, Georgia, Michigan and Illinois.

COLUMBUS regarded his discoveries in America as portions of Asia, "A delusion," says one of his biographers, "under which he labored till his latest hour—and hence he called the inhabitants (of Cuba, Hayti, etc.) Indians.

AN acre contains 4,840 square yards. A square mile contains 640 acres. A mile is 5,280 feet, or 1,760 yards in length. A fathom is six feet. A hand (horse measure) is four inches. A palm is three inches. A pace is three feet.

THE three golden balls, which were once the symbol of the great Medici family in Italy, became the embellishment of the standard of the Lombards. In Britain's early days the fugitive Lombards settled in London, were the "goldsmiths" of that city and the lenders of money to the crown, and of course they had the insignia of their nation over their doors. Hence the money-lenders of the present day use the sign.

THE potato is a native of Chili and Peru. It was originally carried to England from Santa Fe by Sir John Hawkins, A. D. 1563. Their general introduction is usually set down as in 1592. Their first culture in Ireland is referred to by Sir Walter Raleigh, who had large estates in the county of Cork. A fine kind of potato was first taken to England in 1765 by Mr. Howard, the "patriot of every clime." He cultivated it at Cardington, near Bedford, and soon after its cultivation became general.

THE language of England previous to the invasion by the Romans under Claudius Cæsar, A. D. 43, was Celtic; and from that stock have sprung the modern Welsh, Irish and Scotch, and the recently extinct Cornish. During the Roman dominion the language gradually became Latin. From the establishment of the German tribes in the island (A. D. 450) down to the time of Henry III. (about A. D. 1250) the language of England was Anglo-Saxon. From A. D. 1250 to A. D. 1350 the language is called old English; from 1350 to 1550 it is called middle English; since 1550 the language is called modern English.

THE President has no title whatever. He is not "Honorable," like the members of Congress, or State Senators and Judges of the superior and inferior Courts; he is not "His Excellency," like Governors and Ambassadors. He is simply "the President." This is not only a matter of usage, but it has been settled by Congress. A proposition was made to give an official title to the President, and the one that was received with the most favor was "His Highness the President of the United States and the Protector of their Liberties." But after discussion it was decided that the title should be the President.

A Man with Eighty-seven Children.

Feder Vassilef, a peasant of the Government of Moscow, was twice married. His first wife bore him, at twenty-seven accouchements, children as follows:

16 times 2	32 children.
7 times 3	21 children.
4 times 4	16 children.
His second wife bore	
At eight accouchements	18 children.
Total	87

Of this number seventy-three were living in 1841, when the father was 75 years old. These facts are perfectly verified. The family of Vassilef is well known, and it has been the object of Government favors.

Champion Beer Drinkers.

Most people have always regarded the Germans as the champion beer drinkers, but now comes the *Journal of Applied Science* to prove that this supposition is false. While the annual consumption of beer in Germany is twenty-two gallons for every person, it is thirty-three gallons in Belgium and thirty-four in Great Britain. One by one our fond delusions fade away.

"NEVER borrow trouble," said a husband to his wife. "Oh, let her borrow it if she can," exclaimed the next-door neighbor; "she never returns anything, you know."

A REMEDY for dryness of throat will be found in a small piece of muriate of ammonia, about ten or fifteen grains every two hours. Use the best quality, and allow it to dissolve slowly in the mouth.

Sowing and Reaping.

When a young lady hems handkerchiefs for a rich bachelor, she sews that she may reap. When seeds of disease are planted through over indulgence, you can prevent the undertaker from reaping the benefit by using SPRING BLOSSOM. Price 50 cents, trial bottles 10 cents. Sold by A. J. Roberts, and Sherer & Co.

AN Iowa farmer gives this method of destroying cabbage worms: "Take of saltpeter and common salt each a tablespoonful, dissolve in a little hot water, and add twelve quarts of cold water Apply to the cabbages in the heat of the day when the sun shines. If you apply with a good sprinkler, and do your work thoroughly, one application will be sufficient."

NIHILISM.

Its Birth, Rise and Progress.

Nihilism in Russia was first promulgated a few years previous to the accession of Emperor Nicholas in 1825. The revolution of that year was caused by it, although the association was popularly known as the "Decemberists," from the month in which the riot of St. Petersburg occurred. The followers of this organization established a paper in London called the *Bell*, with the famous revolutionist, Hertzen, as editor. His chief object was to bring about a regeneration of the people and to sweep from the face of the earth every member of the Czar's family, the titled aristocracy and the priests, and to make an equal division of all lands. He was remarkably able, and his productions, called "Letters from This Side," produced a profound impression upon the youth of Russia. He unveiled the secrets of the Czar's household, and painted him in the most frightful colors. His agents penetrated the seclusion of the highest circles of Russian society and made converts everywhere, but chiefly in the universities. His influence continued until 1848. He died in Switzerland a few years since an exile on whose head a price had been set for half a century.

Societies under various names sprung up, all having Hertzen's views as their fundamental doctrine. The chief of these was the "Society of Young Russia." They went further than Hertzen, and in their journals, published secretly in Russia, they even denounced the *Bell* as "old fogy." Among the advocates of the new doctrine were Mikhailoff, the great poet, and Tzernyshevski, of Naples. In 1870 the publications were suppressed and the writers exiled. But this mattered little, because their views had gained so strong a hold upon the Russian mind that leaders were unnecessary. In June, 1872, the Czar issued a ukase, giving power to the Minister of the Interior to punish any undue freedom of the press, and since that time there has been an unceasing round of persecution. In the midst of it all, however, the doctrines of the revolutionists have been gaining steadily, until they have honeycombed the Russian empire from end to end. The name Nihilists was first given to them in 1864, in a series of letters by Antovitch, and was immediately adopted, and is now universally recognized by revolutionists of every grade.

In 1870 the Nihilists began to take decided and important action. Young men and young ladies, even in the highest ranks of society, dressed themselves as peasants and sought menial employment, going everywhere and submitting to any sacrifice, that they might propagate their doctrine. The ladies have been especially efficient. They cut off their long hair, and entered the professions. Some of them became physicians, and followed recklessly the examples of the men, and they became equally dangerous to the permanence of the empire as the most flagrant among the revolutionists. Out of their extreme notions of liberty they adopted a form of free-love, abrogating the rite of marriage, and dressing in peculiar forms somewhat similar to the Bloomer costume of this country.

The strength of the secret Nihilist Government, known as the Society for General Freedom, can hardly be overestimated. It has its followers in every circle of society and in every household. Its organization is marvelously perfect and compact, while its mysteries are surrounded by the most awful oaths, with immediate death as the penalty for their violation. Beside these, there are some 14,000,000 of the Starovier (old-faith men). These declare the Czar and his family to be agents of the devil. They endure every form of persecution, and can always be relied upon as the firm friends of the Nihilists. They employ agents who go from village to village spreading their doctrine. They are all able to read and write, and among them are multitudes of Poles and exexiles. By the Nihilists and Staroviers assassination is regarded as a justifiable means of ridding the country of tyrants.

The Lord's Prayer Revised.

The following are the changes made in the text of the Lord's Prayer in the revised version of the New Testament:

REVISED VERSION.	COMMON VERSION.
Matthew vi., 9-13: Our Father which art in heaven. Hallowed be Thy name. Thy kingdom come. Thy will be done, as in heaven, so on earth. Give us this day our daily bread. And forgive us our debts, as we also have forgiven our debtors. And lead us not into temptation, but deliver us from the evil *one*.	Matthew vi., 9-13: Our Father which art in heaven. Hallowed be Thy name. Thy kingdom come Thy will be done in earth, as it is in heaven. Give us this day our daily bread. And forgive us our debts, as we forgive our debtors, and lead us not into temptation, but deliver us from evil.

The Real Old Kirk.

A well-known and popular Scotch clergyman was some years ago favored with a visit of some of his congregation. Being of an hospitable disposition, and desirous of showing them every attention, he requested them to partake of some refreshment. Proceeding to the sideboard, he took out a bottle of brandy, and, holding it up to the light, remarked—"This will not do, it's the Free Kirk—hot and fiery; we'll put it back again." The next bottle he took up happened to be filled with vinegar cordial. It was replaced with the remark—"That is like the U. P. body—if it does little guid, it can do little ill." At last a bottle of whisky was produced, with the exclamation—"We're a' richt noo! Here's the real Auld Kirk o' Scotland; sit doon and make yoursel's comfortable."

RESCUED FROM DEATH.

The following statement of William J. Coughlin, of Somerville, Mass., is so remarkable that we beg to ask for it the attention of our readers. He says: "In the fall of 1876, I was taken with a VIOLENT BLEEDING OF THE LUNGS, followed by a severe cough. I soon began to lose my appetite and flesh. I was so weak at one time that I could not leave my bed. In the summer of 1877 I was admitted to the City Hospital. While there the doctors said I had a hole in my left lung as big as a half dollar. I expended over a hundred dollars in doctors and medicines. I was so far gone at one time a report went around that I was dead. I gave up hope, but a friend told me of DR. WM. HALL'S BALSAM FOR THE LUNGS. I laughed at my friends, thinking that my case was incurable, but I got a bottle to satisfy them, when, to my surprise and gratification, I commenced to feel better. My hope, once dead, began to revive, and to-day I feel in better spirits than I have the past three years.

"I write this hoping you will publish it, so that every one afflicted with Diseased Lungs will be induced take DR WM. HALL'S BALSAM FOR THE LUNGS, and be convinced that CONSUMPTION CAN BE CURED. I have taken two bottles, and can positively say that it has done more good than all the other medicines I have taken since my sickness. My cough has almost entirely disappeared, and I shall soon be able to go to work." Sold by druggists. 1

NERVOUS DEBILITY

SOLD IN — A YEAR

AND SPERMATORRHŒA.

A valuable Discovery and New Departure in Medical Science, an entirely New and positively effective Remedy for the speedy and permanent Cure of Seminal Emissions and Impotency by the only true way, viz: Direct Application to the principal Seat of the Disease, acting by Absorption, and exerting its specific influence on the Seminal Vesicles, Ejaculatory Ducts, Prostate Gland, and Urethra. The use of the Remedy is attended with no pain or inconvenience, and does not interfere with the ordinary pursuits of life; it is quickly dissolved and soon absorbed, producing an immediate soothing and restorative effect upon the sexual and nervous organizations wrecked from self-abuse and excesses, stopping the drain from the system, restoring the mind to health and sound memory, removing the Dimness of Sight, Nervous Debility, Confusion of Ideas, Aversion to Society, etc., etc., and the appearance of premature old age usually accompanying this trouble, and restoring perfect Sexual Vigor, where it has been dormant for years. This mode of treatment has stood the test in very severe cases, and is now a pronounced success. Drugs are too much prescribed in these troubles, and, as many can bear witness to, with but little if any permanent good. There is no Nonsense about this Preparation. Practical observation enables us to positively guarantee that it will give satisfaction. During the eight years that it has been in general use, we have thousands of testimonials as to its value, and it is now conceded by the Medical Profession to be the most rational means yet discovered of reaching and curing this very prevalent trouble, that is well known to be the cause of untold misery to so many, and upon whom quacks prey with their useless nostrums and big fees. The Remedy is put up in neat boxes, of three sizes. No. 1, (enough to last a month,) $3; No. 2, (sufficient to effect a permanent cure, unless in severe cases,) $5; No. 3, (lasting over three months, will stop emissions and restore vigor in the worst cases,) $7. Sent by mail, sealed, in plain wrappers. Full DIRECTIONS for using will accompany EACH BOX.

Send for Sealed Descriptive Pamphlets giving Anatomical Illustrations and Testimony, which will convince the most skeptical that they can be restored to perfect manhood, and fitted for the duties of life, same as if never affected. Sold ONLY by
